SUMMARY

An army barracks installation, divided into two secured areas, is located in the southern part of Nakhichevan immediately northwest and south of the Nakhichevan rail yard. The installation covers a total of approximately 185 acres and is fenced (Figure 1).

The north area contains 75 family/officers quarters, 7 single-story barracks, 10 administrative-type buildings, 10 support buildings, 20 warehouses, 6 vehicle storage/maintenance buildings, and 6 POL tanks. Approximately 145 vehicles or pieces of equipment are parked throughout this installation. In addition, 11 large general purpose tents were noted on the winter missions but absent on the summer missions.

The south area contains 2 barracks, 1 administration building, 9 support buildings, 17 warehouses and 7 vehicles. Nakhichevan Army Training Area West is located approximately 10 kilometers (km) north. A small artillery training area is located 8 km east (Figures 2 and 3).

Since [REDACTED] TALENT and [REDACTED] KEYHOLE missions have covered this area. Between [REDACTED] 7 vehicle sheds or horse stables and 8 miscellaneous buildings were removed from the south area. In the north area, approximately 12 buildings present in [REDACTED] were removed and 6 barracks, an administration/headquarters area, and a motor vehicle repair sector were added during this time.
